Profile

Mohi is a seasoned SAP professional with over 13 years of experience, including 3+ years in SAP S/4HANA implementations across Manufacturing and Aerospace & Defense sectors. He has led both Brownfield and Greenfield projects, specializing in SAP PP, PPDS, QM, MM, and EAM modules, with strong integration expertise in SD, MM, and PP. Her background includes full lifecycle implementations, strategic planning, functional specification development, and cross-functional collaboration using ASAP methodologies.

Key strengths include:

- Deep expertise in discrete manufacturing, MRP, shop floor control, and planning strategies (MTS/MTO).
- Advanced configuration skills in MM procurement, inventory management, warehouse management, and logistics execution.
- Proficient in QM processes across production, procurement, and sales, including inspection planning and batch management.
- Strong experience in SAP PM and MRS, with hands-on knowledge of technical object configuration and service process integration.
- Broad understanding of SAP modules including OTC, PPM, PS, SD, HCM, CATS, and MD.

Functional Experience

- Production Planning (SAP)
- Quality Management (SAP)
- Logistic Execution
- Batch Management
- Asset Management
- Live MRP

Industry Experience

- Aerospace & Defense
- Life Sciences
- Technology
- Manufacturing

Selected Experience

 **Aerospace & Defense** - During her tenure with Bell Helicopter, Mohi supported SAP PP rollout projects focused on shop floor control, capacity planning, and MRP configuration. He analyzed plant-level process differences and recommended SAP-based improvements. Her responsibilities included executing production orders, managing goods movements, and ensuring successful testing and production support.

 **Oil & Gas** -Mohi has worked on several SAP projects within the Oil & Gas sector. At Xgen Dhaka, He led blueprinting for S/4HANA 1709, analyzing business processes and configuring sales documents and planning tools. In another engagement, He delivered full-cycle SAP SD, PP, and QM implementations, configuring master data, optimizing MRP processes, and enhancing production cycles. He collaborated with QM analysts to define inspection methods and supported post-production issue resolution.

 **Life Sciences**- At Zimmer, Mohi implemented SAP PP, PM, and MM across various life sciences operations. He developed SOP structures, configured MRP and demand planning, and led data migration using BOA and HP Mercury tools. Her work included SAP MRS and PM configuration, CAD and DMS integration, and defining technical objects and maintenance plans. He also led user acceptance testing and created comprehensive documentation.
